

Job Title: Director, Public Health Surveillance Systems and Informatics Program
Organization: Tennessee Department of Health
Type: Full-Time
Location: Nashville, TN
Compensation: Negotiable
Work Experience Needed: 3-5 years
Minimum Level of Education: Masters
Position Description:

This person will oversee the Surveillance Systems and Informatics Program within the Tennessee Department of Health (TDH) Division of Communicable and Environmental Diseases and Emergency Preparedness (CEDEP). This program provides support for informatics and data management systems to a number of other programs in CEDEP. Activities include overseeing interoperability of data management systems, data transport, electronic laboratory reporting, and implementation and maintenance of public health surveillance systems. This person will have extensive interactions with the Centers for Disease Control and Prevention (CDC), healthcare institutions, and state and local partners.

This person will work with other CEDEP programs to support the informatics and surveillance system components of CDC grant applications and management. They will supervise a team of other senior public health epidemiologists, and work closely with the TDH Division of Informatics. There will be extensive opportunities to teach and mentor health department staff and trainees.

Qualifications: PhD, MD, DVM, DrPH or MPH and work experience in public health epidemiology or informatics

Organization Description: The CEDEP Division includes programs in Immunizations, TB, HIV/STD/Hepatitis, Healthcare Associated Infections and Antimicrobial Resistance, Environmental Health, Foodborne and Vectorborne Diseases, Outbreak Investigations, and Emergency Preparedness. The SSIP provides support for all CEDEP activities. We have a large and enthusiastic staff, with extensive professional support and a pleasant working environment. Nashville is a burgeoning and vibrant city.
